

The board of directors' of Sinch AB, reg. no. 556882-8908 (the "Company") comprehensive proposal for resolution on implementation of long-term incentive program 2023 ("LTI 2023"), issue and transfer of warrants to participants in LTI 2023 and issue of warrants to secure delivery of shares upon exercise of employee stock options granted under LTI 2023 (item 16)

Background and reasons

Since the Company's IPO in 2015, the Company has implemented several share-related incentive programs, of which one program, LTI 2016, has reached full maturity with no more outstanding warrants or employee stock options. In addition, the incentive program LTI 2018 will expire by the end of the second quarter of 2023.

The board of directors considers it to be in the best interest of Sinch and its shareholders to implement an additional long-term incentive program ("LTI 2023") for senior executives, key personnel and other employees in the group, in accordance with this proposal. LTI 2023 is proposed to include up to approximately 925 current and future senior executives, key personnel and other employees within the Sinch group.

The proposal has been based on the assessment of the board of directors that it is important, and in the interest of all shareholders, to create even greater participation in the group's development for current and future senior executives, key personnel and employees of the group. The board of directors also considers it important to be able to attract talent over time, to encourage continued employment and to maintain a satisfactory employee retention level.

In view of the above, the board of directors proposes that the general meeting resolves to implement the LTI 2023 in accordance with items (a)–(d) below. The resolutions under items (a)–(d) are proposed to be conditional upon each other and for that reason it is proposed that all resolutions are to be passed as one resolution.

Item (a) – Proposal on implementation of LTI 2023

LTI 2023 comprises five (5) Series. Series 1–3 consist of warrants (*Sw. teckningsoptioner*) to be transferred to members of the group management and selected key personnel, business unit management and key personnel and other personnel in Sweden. The warrants of Series 1 have a term of approximately 3.3 years, the warrants of Series 2 have a term of approximately four (4) years and the warrants of Series 3 have a term of approximately five (5) years. The holders can exercise the warrants to subscribe for shares during a period of three (3) months before the end of the term of each Series of warrants.

Series 4 of LTI 2023 comprises employee stock options which may be granted to employees of the Sinch group outside Sweden.

Series 5 of LTI 2023 comprises employee stock options which may be granted to members of the group management and selected key personnel, business unit management and key personnel and other personnel in Sweden.

The board of directors proposes that the general meeting resolves to issue not more than 8,385,000 warrants in total. Pursuant to the resolution in item (b), not more than 1,400,000 warrants may be issued in Series 1–3 (of which not more than 466,667 warrants may be issued in Series 1, not more than 466,667 warrants may be issued in Series 2 and not more than 466,666 warrants may be issued in Series 3). Further, pursuant to the resolution in items (c) and (d), not more than 5,985,000 and 1,000,000 warrants may be issued in order to secure delivery of shares upon exercise of stock options to participants in, respectively, LTI 2023 Series 4 and 5.

The right to subscribe for the warrants of Series 1–5 shall vest in the wholly-owned subsidiary Sinch Holding AB (the “**Subsidiary**”), which shall transfer the warrants of Series 1–3 to members of the group management and selected key personnel, business unit management and key personnel and other personnel in Sweden, and hold warrants of Series 4 and 5 to secure delivery of shares upon exercise of stock options within the frame of LTI 2023 Series 4 and 5. Each warrant and stock option entitles the holder to subscribe for one (1) share in the Company. The warrants shall be issued without consideration to the Subsidiary.

Below is a description of the principal terms and conditions for each of the LTI 2023 Series 1–5.

Series 1–3 – Warrants

The Subsidiary will transfer the warrants in Series 1–3 to participants at a price corresponding to the market value of the warrants (the warrant premium).

Each warrant of, respectively, Series 1, 2 and 3 entitles the holder to subscribe for one (1) share in the Company during the exercise period for each respective Series at an exercise price corresponding to, respectively, 130 per cent, 140 per cent and 150 per cent of the volume-weighted average price for the Company’s share on Nasdaq Stockholm during the period from and including 4 May 2023 up to and including 17 May 2023 (rounded to the nearest full SEK 0.1, where SEK 0.05 shall be rounded up). However, the exercise price may not be less than the share’s quota value (currently SEK 0.01). Days without price quotation shall not be included in the calculation.

The exercise periods for exercising the warrants for subscription of shares under each Series are as follows:

- Series 1: from and including 30 June 2026 up to and including 30 September 2026;
- Series 2: from and including 30 March 2027 up to and including 30 June 2027; and
- Series 3: from and including 30 March 2028 up to and including 30 June 2028.

The issued warrants of Series 1–3 shall, with deviation from the shareholders’ preferential rights, be subscribed for by the Subsidiary, a wholly-owned subsidiary of the Company, whereafter the Subsidiary shall offer warrants to participants. The notification period, during which notice of acquisition of warrants shall be made by participants, shall indicatively start on or around 22 May 2023. Transfer of warrants of Series 1–3 to participants shall be made at a price corresponding to the market value of the warrants (the warrant premium) calculated according to an established valuation model (the Black & Scholes model) and determined in connection with the first day of the notification period. The board of directors of the Company shall be authorized to postpone the notification period during which notice of acquisition of warrants shall be made by participants. Warrants shall also be available to future new employees. For acquisitions made by future new employees, the terms shall be the same or equal to the terms that are set out in this resolution. This means, *inter alia*, that such acquisitions shall take place based on the market value of the warrants at such point in time, and that the board of directors shall set forth an equivalent notification period for new employees whose acquisitions take place after the initial notification period. The valuation of the warrants shall be made by an independent appraiser or audit firm.

Since the warrants are acquired by the participants at market value, there are no performance conditions that need to be fulfilled in order to be offered to acquire warrants or in order to exercise warrants for subscription of shares. However, the Company will, in connection with the transfer of the warrants to the participants, reserve a pre-emption right regarding the warrants if the participant’s employment or assignment within the group is terminated or if the participant wishes to transfer its warrants.

Series 4 – Employee stock options to participants outside Sweden

Each employee stock option entitles the employee to acquire one (1) share in the Company in accordance with the following terms and conditions:

- The employee stock options will be granted without consideration.
- Employee stock options may be granted to current and future employees of the Sinch group who work outside of Sweden.
- Each employee stock option entitles the holder to acquire one (1) share in the Company at an exercise price equal to the fair market value of the share, as determined by the closing price of the Company’s share on Nasdaq Stockholm on the last trading day immediately preceding the date of grant of each stock option. However, the exercise price may not be less than the shares’ quota value (currently SEK 0.01).
- Although the allocation of employee stock options is differentiated between employees with reference to, *inter alia*, position, responsibility and working performance, as well as participation and stock options or warrants held in previously established incentive programs of the Sinch group, there are no defined performance conditions that need to be fulfilled in order to be granted employee stock options. However, the employee stock options are subject to both performance

and time-based vesting conditions as set out below.

- Provided that the holder's employment within the Sinch group has not been terminated as of a vesting date, and that the applicable Performance Condition (as defined below) has been satisfied as of the applicable vesting date, the employee stock options will vest on (i) the first anniversary of the date of grant (the "**Initial Vesting Date**") with respect to 25 per cent of the total number of employee stock options granted to a participant, and (ii) the last day of each of the following twelve (12) calendar quarters (each a "**Subsequent Vesting Date**"), with respect to an additional 6.25 per cent per calendar quarter of the total number of stock options granted to a participant. The total vesting period, after which all granted stock options will have vested (as applicable), is approximately four (4) years from the date of grant. The employee stock options become exercisable soon after each vesting date.
- In order for the stock options to vest, the Company's consolidated adjusted EBITDA per share must, during a measurement period of between four (4) and twelve (12) calendar quarters as is further described below, have increased by an average of at least 10 per cent during such measurement period, where the change is measured as the sum of the relative change (year-over-year) in adjusted EBITDA per share for each quarter compared to the same quarter in the previous year, divided by the number of quarters of the relevant measurement period (the "**Performance Condition**"). The Performance Condition will initially, in respect of the Initial Vesting Date, be measured over a period of four (4) calendar quarters, starting with the calendar quarter immediately preceding the calendar quarter ongoing at the date of grant, after which the measurement period will gradually be increased by one (1) calendar quarter at each Subsequent Vesting Date. The measurement period will however never exceed twelve (12) calendar quarters and will always end on the last day of the last calendar quarter of the measurement period.
- If the applicable Performance Condition is not satisfied as of a vesting date, the stock options concerned will remain unvested and will immediately be deemed forfeited without consideration.
- Upon vesting, unless the employee's employment within the Sinch group ends sooner, employee stock options remain exercisable for a period of five (5) years from the date of grant. In the event the participant is prevented from exercising employee stock options due to the EU Market Abuse Regulation or other applicable laws or internal policies, Sinch's board of directors may prolong the exercise period for such participants with a corresponding period, however not longer than eight (8) months.

Series 5 – Employee stock options to participants in Sweden

Each employee stock option entitles the employee to acquire one (1) share in the Company in accordance with the following terms and conditions:

- The employee stock options will be granted without consideration.

- Employee stock options may be granted to current and future employees of the Sinch group who work in Sweden.
- Each employee stock option entitles the holder to acquire one (1) share in the Company at an exercise price equal to the fair market value of the share, as determined by the closing price of the Company's share on Nasdaq Stockholm on the last trading day immediately preceding the date of grant of each stock option. However, the exercise price may not be less than the shares' quota value (currently SEK 0.01).
- Although the allocation of employee stock options is differentiated between employees with reference to, *inter alia*, position, responsibility and working performance, as well as participation and stock options or warrants held in previously established incentive programs of the Sinch group, there are no defined performance conditions that need to be fulfilled in order to be granted employee stock options. However, the employee stock options are subject to both performance and time-based vesting conditions as set out below.
- Provided that the holder's employment within the Sinch group has not been terminated as of a vesting date, and that the applicable Performance Condition (as defined below) has been satisfied as of the applicable vesting date, the employee stock options will vest on (i) the third anniversary of the date of grant (the "**Initial Vesting Date**") with respect to 50 per cent of the total number of stock options granted to a participant, and (ii) the fourth anniversary of the date of grant (the "**Subsequent Vesting Date**"), with respect to 50 per cent of the total number of stock options granted to a participant. The total vesting period, after which all granted stock options will have vested (as applicable), is four (4) years from the date of grant. The employee stock options become exercisable soon after each vesting date.
- In order for the stock options to vest, the Company's consolidated adjusted EBITDA per share must, during a measurement period of twelve (12) calendar quarters as is further described below, have increased by an average of at least 10 per cent during such measurement period, where the change is measured as the sum of the relative change (year-over-year) in adjusted EBITDA per share for each quarter compared to the same quarter in the previous year, divided by the number of quarters of the relevant measurement period (the "**Performance Condition**"). The Performance Condition will, with respect to the Initial Vesting Date, be measured over a period of twelve (12) calendar quarters, starting with the calendar quarter immediately preceding the calendar quarter ongoing at the date of grant, and with respect to the Subsequent Vesting Date, be measured over a period of twelve (12) calendar quarters, starting with the calendar quarter immediately preceding the calendar quarter ongoing at the first anniversary of the date of grant. The measurement period shall end on the last day of the last calendar quarter of the measurement period.
- If the applicable Performance Condition is not satisfied as of a vesting date, the stock options concerned will remain unvested and will immediately be deemed forfeited without consideration.

- Upon vesting, unless the employee's employment within the Sinch group ends sooner, employee stock options remain exercisable for a period of five (5) years from the date of grant. In the event the participant is prevented from exercising employee stock options due to the EU Market Abuse Regulation or other applicable laws or internal policies, Sinch's board of directors may prolong the exercise period for such participants with a corresponding period, however not longer than eight (8) months.

Preparation and administration

The board of directors shall be responsible for the design, interpretation and management of stock options granted under LTI 2023 within the framework of the above-mentioned principal terms and conditions. The board of directors has the right to make reasonable changes and adjustments in detailed terms and conditions of the framework for stock options under LTI 2023 as deemed necessary or appropriate due to differences in local legislation or practices or for administrative purposes. For holders of stock options who are members of the group management, the board of directors is entitled to (i) accelerate vesting of stock options in the event of a change of control situation where the holder is dismissed from his or her employment in connection therewith and (ii) permit extended vesting and exercisability during the severance period, e.g. in good leaver situations. The board of directors also has the right to adjust detailed terms and conditions of stock options in the event of significant changes within the group or its operational environment that entail that the framework established for stock options under LTI 2023 is no longer reasonable or appropriate, provided that such changes are not more favorable to the participant than the terms and conditions set forth in this resolution proposal.

Recalculation due to split, consolidation, new share issue etc.

The exercise price and the number of shares that each warrant or stock option entitles to subscription of shall be recalculated in the event of a split, consolidation, new share issue etc. in accordance with customary re-calculation terms or as set out in the detailed terms and conditions of warrants.

Allocation principles, etc.

The participants' right to acquire warrants or to be granted employee stock options is differentiated between employees with reference to *inter alia* position, responsibility and working performance in the group. The participants have for this reason been divided into three (3) different categories:

Category A (not more than 25 persons): Members of the group management and selected key personnel

Category B (not more than 50 persons): Business unit management and key personnel

Category C (not more than 850 persons): Other personnel

Warrants may be transferred to members of the group management and selected key personnel, business unit management and key personnel and other personnel in Sweden. A precondition for being entitled to

acquire warrants is that the participant enters into a pre-emption agreement with the Company and that the participant acquires an equal number of warrants of Series 1, 2 and 3, respectively. Pre-emption shall be made at market value. The warrants are otherwise freely transferable. The right to receive employee stock options of Series 4 shall be reserved for current and future employees of the Sinch group who work outside of Sweden, and employee stock options of Series 5 shall be reserved for current and future employees who work in Sweden.

The below allocation principles apply to the grant of warrants/stock options within each of the categories set out above.

Category	Maximum number of warrants/stock options for each participant	Maximum number of warrants/stock options within the category
Category A (maximum 25 persons)	800,000	2,800,000
Category B (maximum 50 persons)	300,000	2,000,000
Category C (maximum 850 persons)	150,000	3,585,000
Total maximum Category A, B and C	N/A	8,385,000

In the event that all warrants and/or stock options within one or more categories are not transferred, such non-transferred warrants/stock options may be offered to employees in other categories. The maximum number of warrants and/or stock options per person within each category as set out above may however not be exceeded for any individual. Warrants may be transferred and stock options may be granted on one or more occasion.

Neither the Company's board members, nor the founders, shall be eligible to participate in LTI 2023.

Item (b) – Proposal regarding issue and transfer of warrants of Series 1–3 to participants in LTI 2023 in Sweden

The board of directors proposes that the Company shall issue not more than 1,400,000 warrants for subscription of shares, whereof not more than 466,667 warrants in Series 1, not more than 466,667 warrants in Series 2 and not more than 466,666 warrants in Series 3, whereby the Company's share capital may be increased by not more than SEK 14,000 at full exercise of the warrants for subscription of shares, corresponding to approximately 0.17 per cent of the share capital in the Company as of the date of this proposal, being SEK 8,386,022.48.

The right to subscribe for the warrants shall, with deviation from the shareholders' preferential rights, only vest in the Subsidiary, with the right and obligation to dispose of the warrants as set out in item (a) above. Each warrant entitles the holder to subscribe for one (1) share in the Company. The warrants will be issued without consideration to the Subsidiary.

In order to fulfil the commitments arising from LTI 2023, the board of directors proposes that the general meeting authorizes that the Subsidiary may transfer warrants to participants, assign warrants to a third party, or in another way dispose over the warrants, in accordance with item (a).

Detailed resolution proposals for each of the respective issues of warrants Series 1, 2 and 3, including complete terms and conditions for the warrants, are set out in Appendices A–C (including sub-appendices).

Item (c) – Proposal on issue of warrants to secure delivery of shares upon exercise of employee stock options of Series 4

The board of directors proposes that the Company shall issue not more than 5,985,000 warrants in Series 4, whereby the Company's share capital may be increased by not more than SEK 59,850 at full exercise of the warrants for subscription of shares, corresponding to approximately 0.71 per cent of the share capital in the Company as of the date of this proposal, being SEK 8,386,022.48.

The right to subscribe for the warrants shall, with deviation from the shareholders' preferential rights, only vest in the Subsidiary, with the right and obligation to dispose of the warrants as further described above. Each warrant entitles the holder to subscribe for one (1) share in the Company during the period from and including the date of registration with the Swedish Companies Registration Office (Sw. *Bolagsverket*) up to and including 31 December 2032, at an exercise price equal to the shares' quota value (currently SEK 0.01). The warrants shall be issued to the Subsidiary without consideration.

In order to fulfil the commitments arising from LTI 2023, the board of directors proposes that the general meeting authorizes that the Subsidiary may transfer warrants to a third party, or otherwise dispose over the warrants, in accordance with item (a).

A detailed resolution proposal for the issue of warrants Series 4, including complete terms and conditions for the warrants, is set out in Appendix D (including its sub-appendix).

Item (d) – Proposal on issue of warrants to secure delivery of shares upon exercise of employee stock options of Series 5

The board of directors proposes that the Company shall issue not more than 1,000,000 warrants in Series 5, whereby the Company's share capital may be increased by not more than SEK 10,000 at full exercise of the warrants for subscription of shares, corresponding to approximately 0.12 per cent of the share capital in the Company as of the date of this resolution proposal, being SEK 8,386,022.48.

The right to subscribe for the warrants shall, with deviation from the shareholders' preferential rights, only vest in the Subsidiary, with the right and obligation to dispose of the warrants as further described above. Each warrant entitles the holder to subscribe for one (1) share in the Company during the period from and including the date of registration with the Swedish Companies Registration Office (Sw. *Bolagsverket*) up to and including 31 December 2032, at an exercise price equal to the shares' quota value (currently SEK

0.01). The warrants shall be issued to the Subsidiary without consideration.

In order to fulfil the commitments arising from LTI 2023, the board of directors proposes that the general meeting authorizes that the Subsidiary may transfer warrants to a third party, or otherwise dispose over the warrants, in accordance with item (a).

A detailed resolution proposal for the issue of warrants Series 5, including complete terms and conditions for the warrants, is set out in [Appendix E](#) (including its sub-appendix).

Additional information regarding LTI 2023

Market value of warrants of Series 1–3

Based on a market value of the underlying share of SEK 28.0, the market value of the warrants of Series 1–3 is, in accordance with a preliminary valuation made by PwC, respectively, SEK 6.19, SEK 6.54 and SEK 7.15 per warrant of Series 1, 2 and 3, assuming an exercise price of, respectively, SEK 36.40, SEK 39.20 and SEK 42.0 per share. The Black & Scholes valuation model has been used for the preliminary valuation of the warrants, assuming a risk-free interest of, respectively, 2.68, 2.56 and 2.40 per cent for warrants of Series 1, 2 and 3, and an estimated volatility during the term of the warrants of approximately 40.0 per cent.

Costs

Given that the warrants of Series 1–3 shall be transferred at a price corresponding to the market value of the warrants, the Company estimates that no social security costs will arise for the Company in connection with the transfer of warrants to the participants. Neither should any social security costs arise in connection to the exercise of the warrants.

The employee stock options Series 4 and 5 are expected to incur accounting costs (accounted for in accordance with the accounting standard IFRS 2) as well as social security costs during the term of the stock options. According to IFRS 2, the employee stock option costs shall be recorded as a personnel expense in the income statement during the vesting period. The total costs for employee stock options Series 4 and 5, calculated in accordance with IFRS 2, are estimated to amount to approximately SEK 53.0 million during the term of the program (excluding social security costs). The estimated costs have been calculated based on, *inter alia*, the following assumptions: (i) a market price of the Company's share of SEK 28.0 at the time of grant, (ii) an estimated future volatility in respect of the Company's share during the term of the stock options of 40.0 per cent, (iii) that the maximum number of stock options encompassed by this resolution proposal are granted to participants, (iv) expected time to exercise in accordance with IFRS 2, (v) an annual turnover of personnel of approximately 9.0 per cent based on historical data, and (vi) that all vested stock options are exercised. Social security costs, which are expected to arise primarily in connection to the exercise of stock options, are estimated to amount to approximately SEK 8.4 million during the term of the program, based on *inter alia* the assumptions set out

under items (i)–(vi) above as well as an average social security rate of 7.1 per cent and an annual increase in the market price of the Company's share of 15 per cent during the vesting period.

Other costs related to the LTI 2023, including *inter alia* expenses related to fees to external advisors, external appraiser and administration of the incentive program, are estimated to amount to approximately SEK 2 million during the term of the program.

Based on the assumptions set out above, the total costs of the LTI 2023 are estimated to approximately SEK 63.4 million in total during the term of the program.

These costs shall be seen in relation to the total employee benefits expenses of the Sinch group, which during the financial year 2022 amounted to SEK 4,203 million.

Dilution

If all warrants/stock options within the frame of LTI 2023 are transferred or granted to participants and if all warrants/stock options are exercised, up to 8,385,000 shares may be issued, equivalent to a maximum dilution of approximately 0.99 per cent of the shares and votes of the Company. Upon full exercise of the warrants, the Company's share capital will increase with SEK 83,850. Together with warrants and stock options which have been transferred or granted to participants in LTI 2018, LTI 2019, LTI 2020, LTI II 2020, LTI 2021, LTI II 2021 and LTI 2022 and which are outstanding as of the date of this resolution proposal, including warrants that have been exercised but where the shares have not yet been registered, the maximum dilution will amount to approximately 4.76 per cent of the shares and votes of the Company. The dilution calculations have been based on the maximum number of shares and votes which may be issued upon exercise of warrants and stock options, divided by the total number of shares and votes in the Company after such issues (based on the number of shares issued in the Company as of the date of this resolution proposal, being 838,602,248 shares).

Motivation in respect of Series 4 stock option vesting and exercise conditions

According to the Rules on Remuneration laid down by the Stock Market Self-Regulation Committee (Sw. *Aktiemarknadens Självregleringskommitté*), the vesting period, or the period between the date of grant until the date when a warrant or stock option may be exercised shall, as a general rule, not be shorter than three (3) years and any deviations from this general rule shall be justified. As set out further above, vesting of Series 4 employee stock options will start on the first anniversary of the date of grant of the stock options to participants, and on the third anniversary of the date of grant, up to 75 per cent of the employee stock options granted to a participant may have vested (provided that all applicable vesting conditions have then been fulfilled). Further, the vested stock options become exercisable soon after they have vested. The reason for applying such terms, which are not in line with the recommendations of the Stock Market Self-Regulation Committee as set out above, is that the board of directors of the Company consider such terms to be in line with market practice for employee stock option programs in most of the countries where the intended participants in Series 4 of LTI 2023 operate. It is therefore, in the opinion of the board of directors,

in the best interest of the Company and its shareholders to apply such terms in order to fulfil the objectives of LTI 2023.

Preparation of the proposal

This proposal in respect of LTI 2023 has been prepared by the Company's remuneration committee and board of directors in consultation with external advisers.

The reason for the deviation from the shareholders' preferential rights

The reason for the deviation from the shareholders' preferential rights is to implement LTI 2023.

Majority requirements

Since the resolutions under items (a)–(d) are conditional upon each other and passed as one resolution, a resolution to approve the proposal is valid only when supported by shareholders holding not less than nine-tenths (9/10) of the votes cast as well as the shares represented at the general meeting (as the transfer of warrants to participants under items (b)–(d) require such majority).

Authorization

It is proposed that the board of directors, or a person appointed by the board of directors, shall be authorized to make such minor adjustments to this resolution that may be required for the registration with the Swedish Companies Registration Office (Sw. *Bolagsverket*) and Euroclear Sweden AB, and that the board of directors shall have the right to undertake minor adjustments to the incentive program due to applicable foreign rules and laws, applicable laws, regulations or market practice.

Overview of outstanding incentive programs

Since the Company's IPO in 2015, the Company has implemented several share-related incentive programs, of which one program, LTI 2016, has reached full maturity with no more outstanding stock options or warrants. An overview of all outstanding incentive programs is included in the table below.
